

Instruction to Access a CYFI JMPSTN and Work with your Assigned Persistent VMs

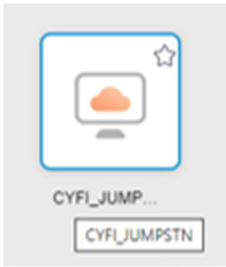

1. Open a browser and type **horizon.ubalt.edu**
2. You will be directed to the VMware Horizon page.
3. Click on VMware Horizon HTML Access hyperlink.

4. Login using your UB network credentials:

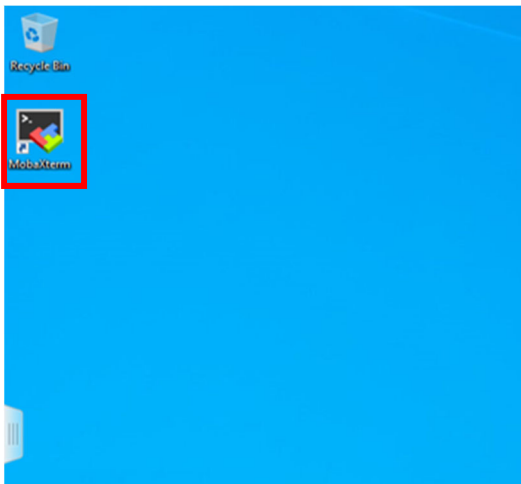

A screenshot of the VMware Horizon login page. At the top is the VMware Horizon logo, which consists of a green monitor icon with a white cloud inside. Below the logo is the text "VMware Horizon". To the right of the logo is a small gear icon. Below the logo and text are two input fields. The first is labeled "Username" and the second is labeled "Password". Below these fields is a green "Login" button. At the bottom is a "Cancel" link.

5. Click on the “CYFI_JUMPSTN” pool icon and accept the AUP by clicking the “OK” button:

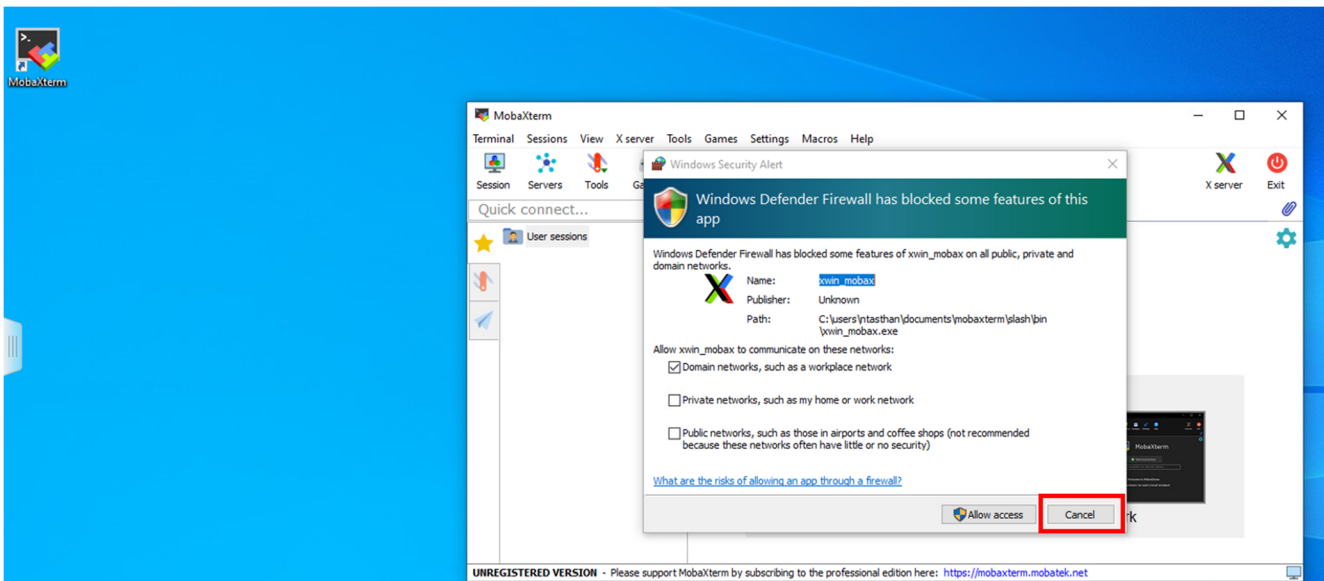

6. A temporary **Win10 jump station** will be created virtually for you to connect and work with your **assigned persistent Win 10 and Kali VMs** using **MobaXterm**.

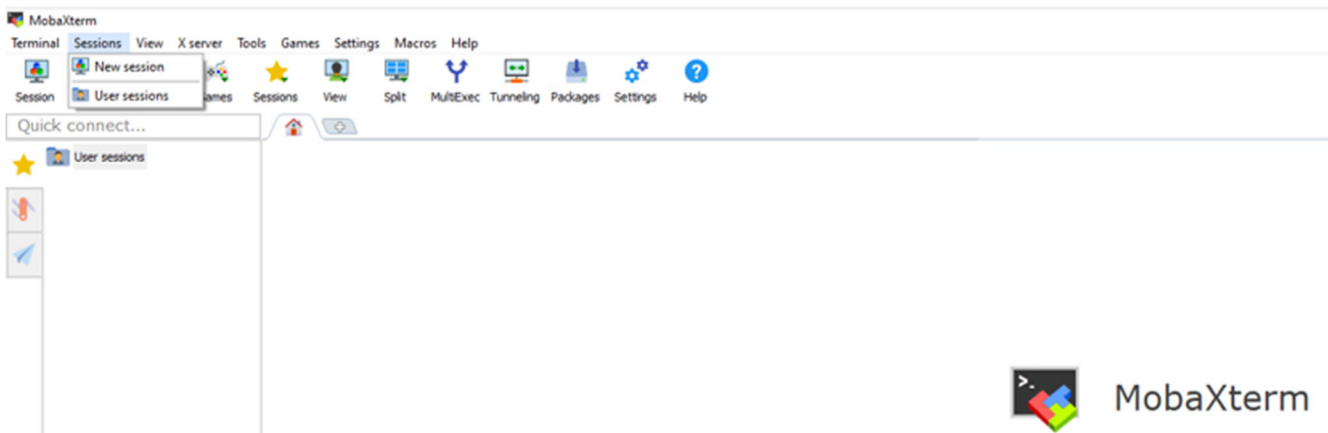

7. Double-click the **MobaXterm** icon:

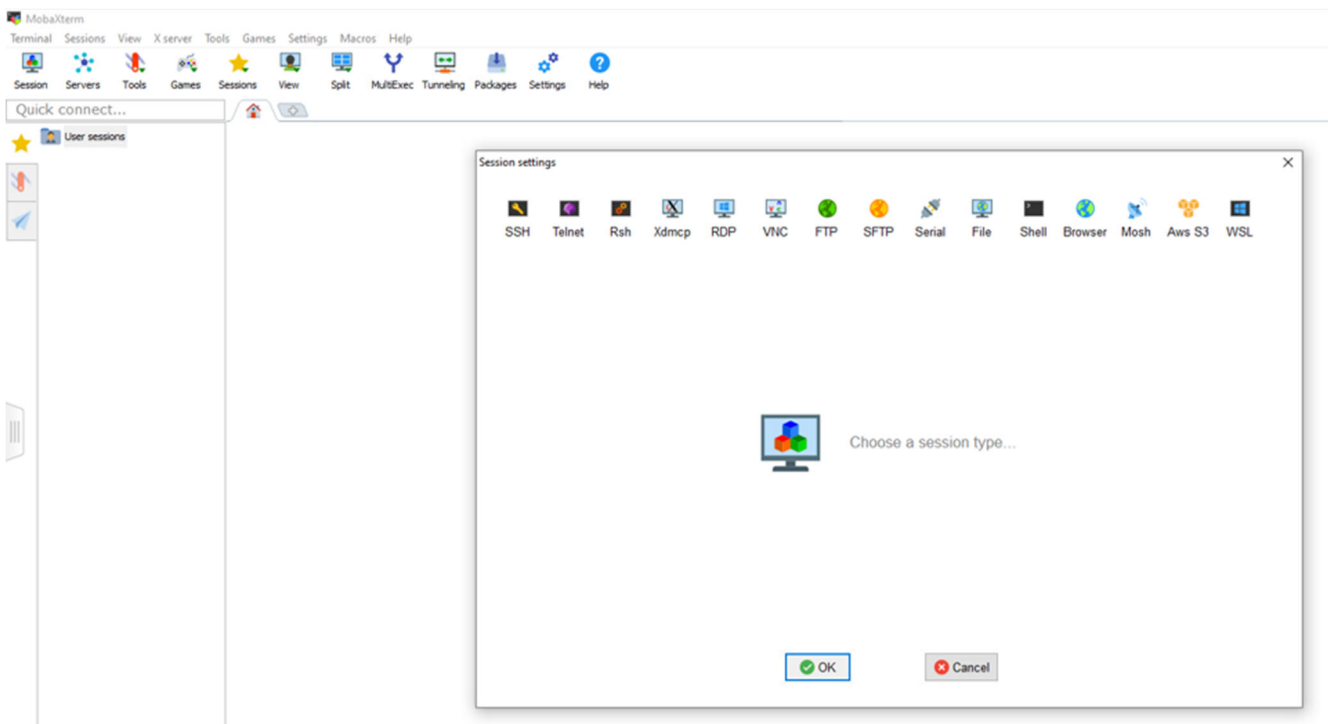

8. Click on ‘Cancel’ when the “Windows Security Alert” pops-up:

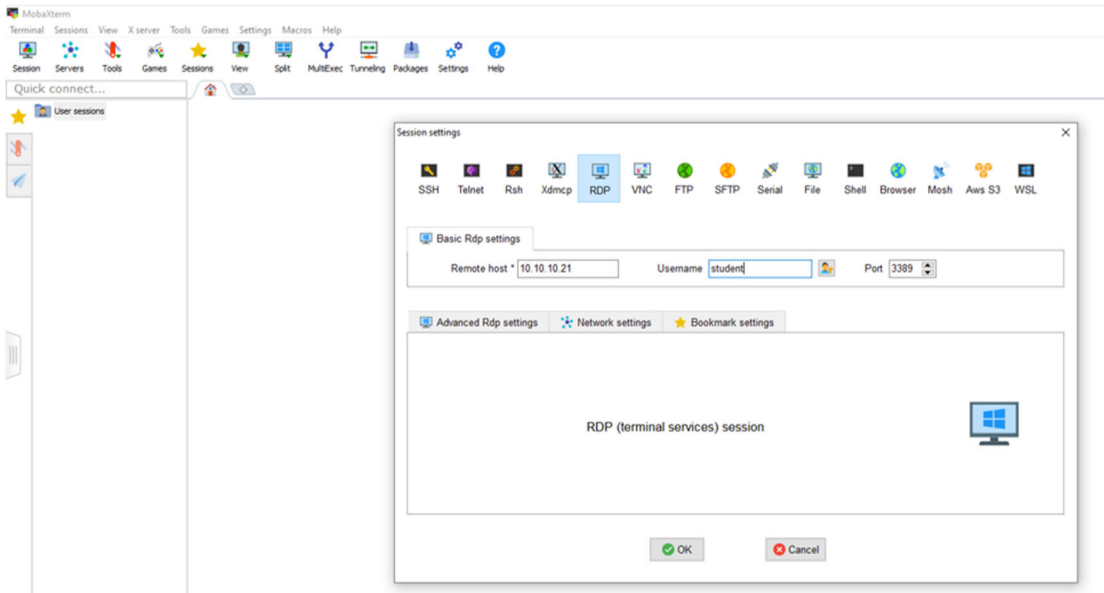

9. You can now either **RDP** to your **persistent Win 10** or **RDP/SSH** to your **persistent Kali VMs** by clicking on “**Sessions**” and choosing “**New Session**”:

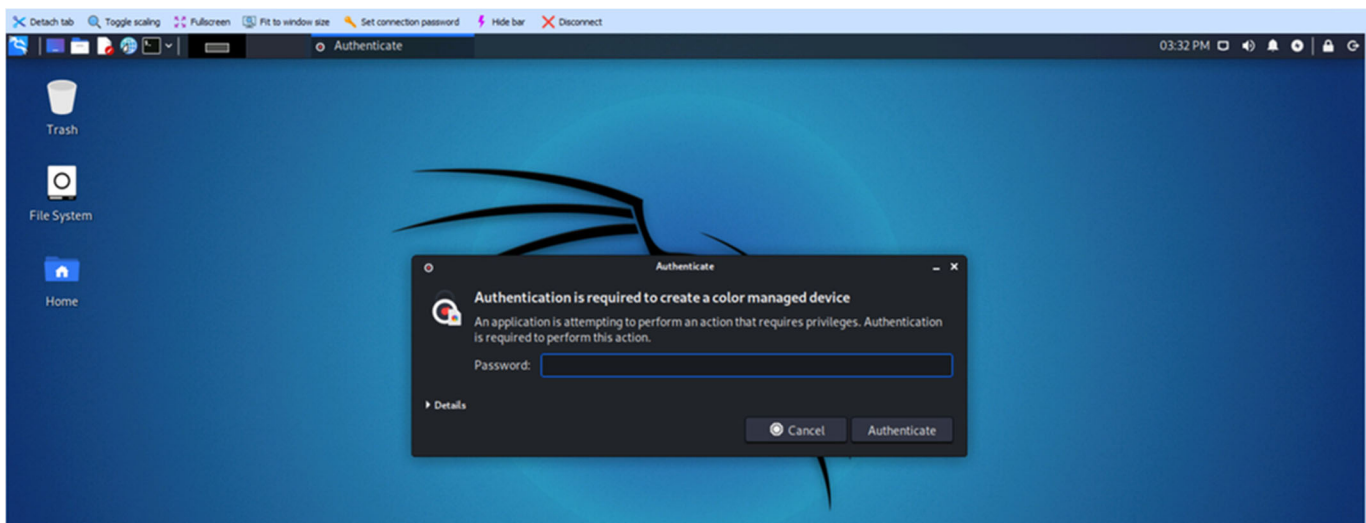

10. Choose a **Session Type** (for example, let's RDP to your **Kali VM**):

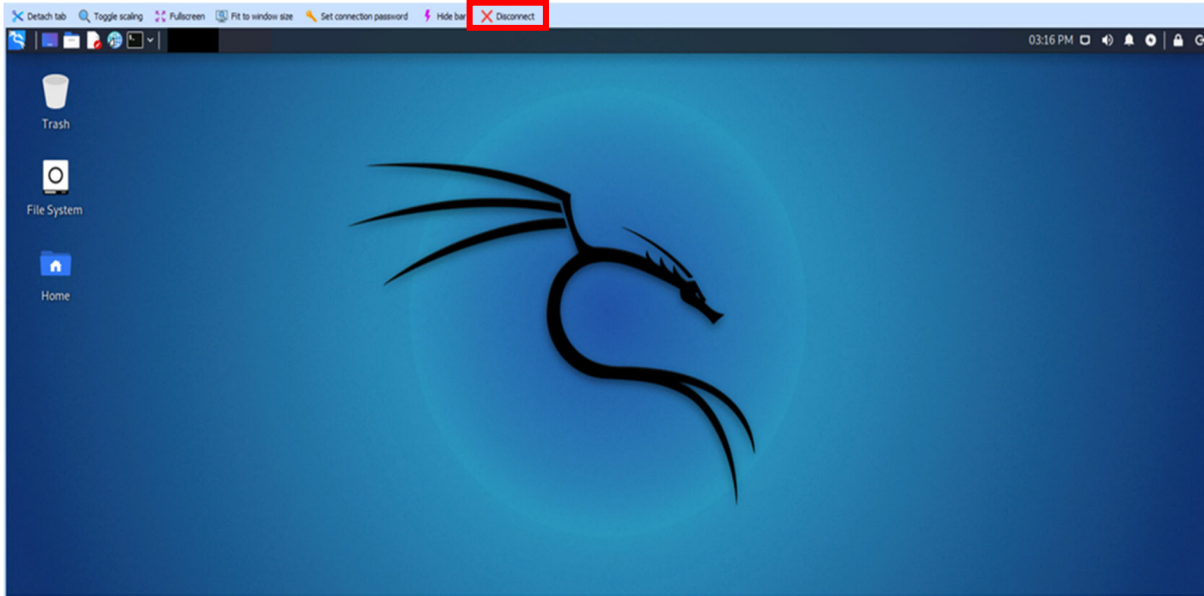

11. Use your Kali VM IP Address provided by your **Professor** for the “**Remote host**”. **Note:** Username “**student**” and password “**123**” (both without the quotes) are the same for **your assigned persistent Win10 and Kali VMs**:

12. Use the same password “**123**” (without the quotes) for the following one-time authentication (only for Kali GUI):

13. “Disconnect” and “Exit” from **MobaXterm** after saving your data on your **Persistent VMs/Cloud Storage** and are done with the session(s):

14. Remember to “Shut down” the “CYFI_JMPSTN” VM after you exit from **MobaXterm** and then “Log out” from horizon.ubalt.edu server:
